

BLUEPRINT FOR LIVING: JULIET ROSEVILLE BY HYECORP

A new boutique development promises convenience, customisation and contemporary living in the heart of Sydney's Upper North Shore

If there was a blueprint for how to do medium density housing in our major cities, Juliet Roseville could well be it. Located on Sydney's Upper North Shore, close to some of the state's most prestigious schools including Knox Grammar, Roseville College, Ravenswood Girls' School and Pymble Ladies College, the residences are ideally positioned to encourage walking and public transport use while creating an enviable lifestyle of calm, comfort and relaxation.

Constructed above the reinvented Roseville Memorial Club – which itself is set to become a local architectural landmark – Juliet Roseville has been offered by

award-winning, family owned developer Hyecorp which has been delivering homes in Sydney for more than 25 years.

With just 35 apartments over seven levels, the house-like spaces at Juliet provide the amenity traditionally associated with on-ground accommodation but with all the convenience of en plein air living. Light-filled interiors are complemented by spacious balconies which effectively double the available living space.

With one, two, three and four-bedroom apartments available, the boutique development is ideal for professional couples, families, downsizers and investors alike.

Central to Hyecorp's interior design approach is the "Live Your Way" service, which allows prospective owners to customise their apartments to reflect their individual style. The bespoke service includes a studio appointment with an interior designer and the choice of two colour schemes for each apartment. For those with very discerning tastes, the bespoke upgrade packages offer buyers the chance to work with an interior designer to choose window coverings, lighting, underfloor bathroom heating and more.

Beyond the interiors, services at Juliet Roseville reflect the very best of contemporary living, with provision for everything from parcel lockers and dog washing bays to EV charging and car washing stations.

In keeping with its sustainability ethos, Juliet also enjoys an average NatHERS energy throughout the building.

While there is ample parking available, the site is conveniently placed near Roseville Village shops, just two minutes away, with Westfield Chatswood and The Concourse Chatswood less than 10 minutes down the road.

Families will enjoy the local parks and recreational facilities including Lane Cove National Park, Roseville Golf Club and Roseville Park Tennis Courts, while three of the city's best hospitals are less than 20 minutes away.

From the sparkling new amenities to the well-serviced leafy surrounds, it's hard to think of a better place to start your new life.

Expected completion date: 2026
